No. 148

BELIEVED "THE" ANTICLINE LIES EAST FROM CITY

Huge Areas Blanketed Around Mundare, Birch Lake and Wainwright.

OIL TRUST NOW SAID TO BE REPRESENTED Industrial and Manufacturing Possibilities for City Would Be Great.

It is known that geologists for many years have been trying to locate "the anticline in Alberta, and many believe that the developments of the past few weeks go to show that what they have been looking for so long has been found and that it is neither in the Diamantina or Monarch fields, but east of the city along the Canadian Northern and G.T.P. main lines.

Ever since the news was brought to Edmonton 10 days ago, of the great gas discovery just east of Mundare, and indications of oil, this district has

KAISER SAID TO EXHORT PRINCE TO RESIST TILL LAST

London, June 22.—A telegram to the Daily Express from Rome says: "A friend who has just returned from Durazzo tells me that last Monday Prince William received a long telegram from the Kaiser, exhorting him to resistance and pointing out that a Prussian officer only retires at the last moment when all resistance is useless.

The Kaiser advised him to place his wife and children aboard ship and defend the place with the last shot. Allen, he, too, should retire to the ship leaving the settlement of the issue to the decision of the powers."

Understand that your presence will be required again.

Had Roulette Wheel
M. W. Eager, solicitor, spoke of being given a roulette wheel "as a souvenir" by ex-inspector Campbell. It was removed from his house in his absence by an "individual" unknown. He subsequently heard that the wheel was being used at a gambling joint in First street, next to the Lewis Bros. Cafe.

Witness said he could identify the wheel if he saw it.
Mr. Higgs: Unfortunately that is the only thing the police did not get. They got all the tables and chairs.

Woman Paid \$100
Inspector Hurbuck was next called. He said he had gone to see Blanche Harpold to investigate a statement that protection had been paid. She admitted paying \$100 to a man named Allen, of the St. Hotel, for protection.

Mr. Girvin of the Grand View hotel first asked her for the money and she refused to give him any. That was reported to Commissioner Booth. Witness said that he had several times investigated complaints regarding Pay West, at the corner of Fourth and Hardy. They had been unable to get any evidence against her.

All the houses he knew of were raided.
Shown by Mr. Ewing the list of 37 houses which Inspector Seymour had furnished and asked how many he knew of witness said he only recognized two.

First Street Raid
Witness said he waited at the police station from 11 till 11:50 for Seymour on the night of the gambling raid. He thought the raid had been postponed as Seymour did not turn up. Later he walked to First street and was told the raid was in progress. He went into the premises and saw Wheeler, who said: "There must be a mistake about this, you have no right to raid this place."

WHEELER WILL NOT TALK TILL IS OBLIGED TO

Star Witness Was Called This Morning, But Left Box Without Testifying After Statement By H. A. Mackie, His Solicitor—Latter Declares That Application For Injunction Is Not Frivolous—Ernest Seymour, Late Police Inspector, Tells of Lancey's Orders Not to Raid Houses—Says Wheeler Offered Him Fourth ---Regular System of Inspection Told About.

William Wheeler, late manager of the Dominion club, was called to the witness stand at the police investigation today, but H. A. Mackie, his solicitor, objected to him giving any evidence. Mr. Mackie asked that Wheeler should not be pressed to give evidence till after the disposal of the application for an injunction to stop the investigation, which application might or might not have a very wide effect.

Mr. Mackie stated that the application was no mere frivolous objection and in proof of his seriousness quoted Todd, on parliamentary government in England, as his authority for stating that a commission could not inquire into matters concerning criminal charges without a special act of parliament.

Justice Scott remarked that there was no criminal charge against Wheeler at the present time.

Ernest Seymour, late inspector in the city police force, and head of the morality department just prior to ex-Chief Lancey's dismissal, again stated that Lancey told him not to raid the houses, but to tell them to move when complaints were made.

Witness produced a list of 37 houses of ill fame which he said he had visited and knew well what was going on there. He could have got convictions against them all, but for his orders not to touch them.

Seymour gave the impression that a regular system of inspection of the houses was in force. He said Lancey handed him orders from Commissioner Booth, that the houses on First and Jasper were to remove their lace curtains and use only green blinds. In accordance with his instructions he notified the houses on the principal streets to that effect.

The witness also declared that Wheeler offered to exchange lists of houses with him and offered him a quarter of what he collected. Wheeler, said Seymour, told him that times were hard and he could not give him more because "Joe was there with a big mitt."

It did not transpire in the course of the evidence who was referred to as "Joe."

Seymour stated that Lancey gave him orders at 2 o'clock on Friday May 22 to go round and tell all the houses to close—"that the game was up."

He also stated that he understood Wheeler was proprietor of the gambling resort on First street, as Wheeler stated that "he would go good for it" when he asked him who was running the place.

It is understood that the police investigation will proceed tomorrow morning without interruption while the application to stop same is being heard.

The police inquiry was resumed shortly after 10 o'clock this morning.

M. W. Eager requested permission for ex-inspector Campbell, one of the witnesses, to be allowed to go to Calgary in pursuit of his duties, and stated that Mr. Campbell would return at any time.

Harry Lawson, William Higgins, Ora Kirk, Oscar Hawkins (colored), ex-Constable Steele and William Bluet were registered as witnesses.

Mr. Higgs said that as Inspector Hurbuck was on night duty and he proposed to call him later and go on with William Wheeler.

William Wheeler was then called into the box.

Advised Not to Speak
H. A. Mackie, appearing on behalf of Wheeler, asked that pending the result of the proceedings begun yesterday, he asked that Mr. Wheeler be not examined. The application, which would be heard tomorrow, might have a very effect, or it might not. When the application was disposed of Mr. Wheeler would come forward and give his evidence freely and voluntarily.

O. M. Higgs asked if Mr. Mackie on behalf of Wheeler was refusing to answer any questions.

Mr. Mackie said he first made his application in the form he had stated, and if he was forced to take the position alone.

Says Barrett Drove Him and Wheeler to the Chief's House, But They Got No Response There and They Discussed the Matter on the Way Back in an Automobile—He Decided To Leave Wheeler in Charge and He Went Away—Mr. Biggar Asks if There Were Not an Arrangement Between the Gamblers and the Police.

Ex-Inspector Seymour was again on the stand this afternoon. He said Wheeler suggested that they go and see Chief Lancey when witness wanted to take away the gambling paraphernalia from the first street joint, adjoining the Dominion club. Eugene Barrett drove him and Wheeler to Lancey's house, but not being able to arouse Lancey witness agreed to let Wheeler keep the stuff. He left Wheeler in charge and went away.

Mr. Biggar was very sarcastic in regard to the manner in which Wheeler was left in charge, so that he could carry on the gambling business the next day.

"Was there not an arrangement between the police and this gang of gamblers to allow them to run if these men pleaded guilty?" asked Mr. Biggar.

Seymour insisted that he knew nothing of any such arrangement, whereupon Mr. Biggar asked him if the reason that the gambling paraphernalia was all left behind was merely because of his foolishness. Witness did not reply to this and Mr. Biggar told him to stand down. "Mr. Seymour will understand that his presence will again be required" was Mr. Biggar's parting shot.

M. W. Eager, solicitor, stated that he was given a roulette wheel "as a souvenir" by ex-inspector Campbell. The wheel was taken from his house in his absence and he subsequently learned that it was being used in a First street gambling joint. He did not know of anyone outside the police who knew he had the wheel.

Inspector Hurbuck said Blanche Harpold, a woman who kept a house of ill fame, told him she paid \$100 for protection to a man named Allen. Girvin, of the Grand View hotel had first asked her for it but she had refused to give it to him. Allen was staying at the St. Regis hotel, and witness thought he had an interest in the hotel.

Ex-Chief Lancey was not present at the morning session, but was again at attendance this afternoon.

A large number of original documents from the police department have been put in, including the "roque's gallery," or collection of photos of criminals.

Mr. Biggar handed in a packet which he said had been given him by Seymour and contained money he took in the raid on the First street gambling house.

Hudd Lewis and Eugene Barrett were both called, but neither were present.

Seymour Again In Box.

Ex-inspector Seymour was further examined. He said he had not seen the list Mr. Lancey gave him since he saw it in Mr. Biggar's office.

Asked whose handwriting the list was in, he said it was in Mr. Lancey's writing.

Witness was again questioned regarding the First street raid. He said lists of names were made by Johnson, Urno and Bryant. His next conversation with Wheeler was after they had left the place, Johnson, Urno and Bryant remained behind.

Where did you go?—To the chiefs house.
What about?—The stuff that was to be taken away. Wheeler said he would go good for it and I said I would see the chief about it. Besides the officers a man named Lewis and another named Fred Kearns were there.

Witness drew a plan of the premises at the request of Mr. Higgs. Although pressed by Mr. Higgs, witness said he could not tell the names of other men who stayed.

"Go and See Chief"

Wheeler stayed behind with the police, but the other men after going out came out.

Mr. Higgs suggested a man named Hargenson and witness admitted that he was there as well as one of the Lewis and Kearns.

Why did you leave?—Wheeler said he would go good for the stuff and I said All right, well go and see the chief.

Who suggested that you see the chief?—Wheeler. I was going to take the stuff and then Wheeler said he would see the chief.

Did you make any attempt to communicate with the chief by telephone?—I rang and could get no answer. Anybody else ring?—I think Burke did. The central said there was

something the matter with the line.

Changed His Opinion.

After that you set out to see the chief in an auto?—Yes.
Who else was there?—Wheeler, Barrett and myself.

Where is the chief's house?—In the Dalton block, on the corner of Stony Plain and Twenty-seventh.
Who got out of the car?—Wheeler and me.

What did you do?—I knocked twice and got no answer. Then I went away.
If the chief says he was communicated with by phone about one o'clock that is not correct?—I don't think there was any communication about that time.

When witness returned to First street Wheeler and Lewis went in the place. He discussed the matter of leaving the stuff there with Burbeck and then went away.

You had decided to take this stuff away. When did you change your opinion?—After I spoke with Inspector Hurbuck.

There had been no arrangement made with Wheeler on the way back?—I don't know.

Mr. Biggar: I want to know. Witness: I think I told Wheeler I might leave the stuff there and I would speak to the others when I got back.

No Authority Given.
That was about the chief's house?—Yes.
Mr. Higgs: I don't want any doubt about these things; they may be important.

You had no authority from the chief to leave it there and if he says he did that is not accurate?—The chief gave no authority.

When did you leave in charge of this stuff that you knew it was your duty to take?—I left it in charge of Wheeler. Lewis was there also.

Did you look up the premises?—They were going to look up.
Oh, I see, they were relieving the police of that duty?—Yes. (Laughter).

See What Would Happen
Witness described the furniture of the gambling joint, there being poker tables, roulette tables, crap tables, cards and pool chips in a tray.

They collected the chips to make it convenient for you?—They were altogether. They were there just to make a visit? (Laughter). Who was the man who gathered the things up?—I don't know. I think he was a race

horse man. All the things were put in a green bag and a grain sack.

You could have taken everything of value without getting the patrol wagon?—Yes.

The gambler with the proprietor of the gambling house everything necessary to begin the game again next morning?—Yes.

He could begin again if he wished. Asked why he kept the money he got in the raid till now, witness said he kept it to see what was going to happen.

Denies Arrangement
Did you have any inquiry from the owner of the money?—They never came around for it.

Witness said he reported to Chief Lancey on Sunday afternoon and the chief told him that they should have taken everything there was.

Did you make any effort to go and get it?—No.

You ask Mr. Wheeler to be good enough to let you have the key so that you could get the stuff?—I never spoke to him again.

How were you going to prove the charges?—Wheeler said they would all plead guilty.

Anything said about how much they would pay in fines?—I don't remember anything being said about that.

I told there was stuff left behind worth \$3,000 to \$4,000?—I don't think it was worth \$100.

Wheeler Not Charged.
Why did you charge Kearns with being the keeper when you knew it was Wheeler?—Williams told me Kearns was the keeper.

Did you believe Kearns in preference to Wheeler?—He was a gambler and I thought it would be Kearns. Kearns admitted that he was.

You knew Wheeler was the keeper?—Only from what he said; you cannot believe everything he says. (Laughter).

Mr. Biggar: I want to know if there was not an agreement between the police with yourself and Wheeler to allow these people to carry on if these men would come and plead guilty?—I know of nothing about that.

Do you say all those acts were due purely to your foolishness and they were not the result of an arrangement between this gang and the police?—Witness: I don't know what you mean by that.

Mr. Biggar: You can stand down.

FOR AUTHENTIC REPORTS OF THE PROCEEDINGS OF THE POLICE INQUIRY, READ THE EDMONTON CAPITAL

HULL OF EMPRESS LIES OVER MILE FROM COLLISION

Evidence from Officers of Two Ships Still Contradictory.

DIVERS RELUCTANTLY GIVE UP THEIR WORK Collier Stordstad to Be Sold by Auction July 7—Money to Be Paid Court.

Quebec, June 23.—Maintaining its record for producing contradictory statements that cannot be reconciled to one another, the Empress of Ireland wreck inquiry yesterday unearthed a fact when it was given the position of the hull of the liner on the bottom of the St. Lawrence, which again drew attention to the different explanations of the positions of the ships at the time of the disaster. On the map it was found the wrecking place was 1 1/2 miles south of the place where Captain Kendall, the commander, says she was hit, and one mile north-west of the point at which Chief Officer Tuffeneau, of the collier Stordstad, contends the collision happened. The location of the wreck was explained by Captain Gagnon, of the Dominion Marine department, who layed it.

The taking of evidence was interrupted twice yesterday because the members of the commission and the lawyers for the government, C.P.R. and Stordstad had to attend a reception given to H.H.H. of the Duke of Connaught. In the court house and a luncheon for the government, general by Mr. Justice Lacombe and the Quebec district judge in the Chateau Frontenac. In the morning an effort was made to get further details about the operation of the Stordstad from Chief Officer Tuffeneau, who had filed his report and deck log books. The attempt was temporarily abandoned because it was discovered that like the engine room log, a number of the important facts referred to had been written up after an interval of some hours, and the officer was hurried off to Montreal for the memoranda he had made at the time the orders were issued. On the morning the Stordstad was in the harbor, the first officer, Mr. McIsaac, general traffic manager of the Dominion Coal company, which chartered the ship, said that while gratified the ship was given, he was not carrying the most tonnage, speed not being considered.

The cause of the tremendous burst of water into the punctured hull of the Empress was again obviously the motive for a number of questions asked by Lord Mervyn of William Mair, a night watchman on the Empress, who was examined as to many as 100 holes were left open. This man could

"TIZ" FIXED MY SORE, TIRED FEET

"O, Girls, 'Don't have puffed-up, burning, sweaty feet or corns."

All, what relief. No more tired feet; no more burning feet; no more swollen, had smelling, sweaty feet. No more pain in corns, callouses or bunions. No matter what ails your feet or what under the sun you've tried without getting relief, just use "TIZ". "TIZ" is the only remedy that draws out all the poisonous exudations which puff up the feet. "TIZ" is magical; "TIZ" is a brand; "TIZ" will cure your foot troubles so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never never hurt or get sore, swollen or tired. Think of it, no more foot misery; no more burning corns, callouses or bunions.

Get a 25 cent box at any drug store or department store, and get instant relief. After a whole year's foot relief for only 25 cents. Think of it!

supply no definite information, though it was learned that the night being fine and the river calm, many of them were not closed and when the list grew great and the water through the hole in the hull was augmented by the rush through the cabin port-holes. All attempts to get the 300 bodies entombed in the sunken hull of the Empress of Ireland were abandoned yesterday, following the conference between Lieutenant-Commander Forbes, of the H.M.S. Essex, and the divers of the men-of-war at the scene of the disaster. The H.M.S. Essex, which was in the harbor, was called to the scene of the disaster, from his fall off the slimy hull of the steamer.

Commander Forbes reached Father Point today and his investigation showed that the accident happened while the Empress was at low level, that every precaution for deep sea diving operations was properly carried out and that no better conditions for carrying on the work could be expected.

Lieutenant-Commander Forbes notified Captain Walsh, marine superintendent of the C.P.R., of these facts, and suggested that the Empress be sent back to their ship here. Captain Walsh, after consulting with Captain Watson, of H.M.S. Essex, reluctantly decided that everything possible had been done to secure the bodies and that nothing could be gained by the divers remaining at Father Point. They were accordingly ordered to return to their ship.

This decision of the C.P.R. does not affect the operations of the company in attempting to salvage the ship, but it is a fact that it will also be compelled to give up diving operations.

Montreal, June 23.—Mr. Justice Durocher, in the admiralty court yesterday, with consent of both parties, ordered the sale by auction of the collier Stordstad, which rammed and sank the Empress of Ireland near Father Point on May 29.

This follows the seizure of the vessel on her arrival here on June 1, at the instance of the Canadian Pacific railway, owners of the Empress of Ireland.

The sale of the collier Stordstad is to take place by public auction on July 7, at the court house, after due notice has been given in the New York Journal of Commerce and the Montreal Gazette. The money is to be paid into the court.

GOVERNMENT WILL GIVE \$50,000 TO MINERS' FAMILIES

All But Eleven Bodies Have Been Taken From Mine; 162 Identified.

BELIEVES THAT THREE EXPLOSIONS OCCURRED J. S. C. Hudson, Mine Expert From Department of Mines, to Investigate.

Ottawa, June 23.—An appropriation of \$50,000 for the relief of the sufferers by the Hillcrest disaster will be made by the government. Following this afternoon's cabinet meeting Mr. Robert Borden made this announcement. He stated that inquiries were being made by the government here through Senator Lougheed as to the organization of a relief committee and when this information is secured, the money will be available. It will be raised by authority of a governor-general's warrant.

Three Explosions. Hillcrest, Alta., June 23.—The latest disaster figures are: Recovered, 41; dead, 195; bodies recovered, 145; bodies identified, 162; unknown, 31; is accounted for still in the mine.

No new theories as to the cause of the disaster have been put forward, with the exception of one presented by Pitt House lawyer of another mine, have been made public. This man thinks that three explosions occurred, and that the first was caused by gunpowder used in blasting, the charge of gas exploding by concussion, rather than ignition. He states that the second charge was set off by the first explosion, and so on. One of the survivors stated that he heard three distinct explosions, but they were so close together that he could not distinguish any detail.

Expert to Inquire. Ottawa, June 23.—J. S. C. Hudson, of the department of mines, has left for Hillcrest, Alta., at the request of Prof. W. B. Brock, deputy minister, to look into the causes of the recent disaster. Mr. Hudson is an expert who has made a special study of mine accidents and their causes. He was principally responsible for the new law relating to explosives passed by the dominion government. The dominion government does not propose to conduct a general inquiry into the cause of the accident, but will leave that to the provincial government. All possible information will be gathered with the object of preventing accidents of a similar nature in the future.

Yesterday the governor general received the following message from the minister of mines: "I am grieved to hear through the press of the terrible disaster at Hillcrest, Alberta, where 195 men and many hundreds have lost their lives. Please express my deepest sympathy with the sufferers and also with the families of those who have perished."

Hon. Lewis Harcourt, colonial secretary, sent the following message to the governor: "Please convey to your ministers an expression of deep sympathy from His Majesty's government and people of Canada in the calamity disaster."

Appeal for Help. Hillcrest, Alta., June 23.—Robert E. Campbell, M.L.A. Rocky Mountain, has issued the following appeal to the public through the press:

"Follow citizens, once again a terrible calamity has fallen upon a portion of our people by which nearly 200 families have been bereft of their loved ones, who they depended for support. 'One hundred and ninety miners, nearly all of whom were heads of families, have been killed by the explosion on Friday last at Hillcrest. The consequent suffering and destitution is beyond realization of those of our people who have never witnessed or experienced the effects of such disaster, but who, nevertheless, will sympathize with them in their unfortunate position."

"On behalf of these destitute families I appeal to the people of this country for assistance to alleviate their wants. At the request of those mostly interested I have appointed a committee composed of the judges of the district court of Macleod, A. J. Carter, secretary of district 18 of the U.M.W.A., and Colin Macleod, barrister. All monetary contributions should be offered to the Union Bank, Bellevue, Alta., to the credit of the Hillcrest relief fund. Any food or clothing addressed to the same committee, handed to any C.P.R. agent, will be forwarded free of charge, and acknowledgments of which will be made through the press. Believing that the citizens of Canada now as in the past will come to the assistance of the sufferers, I remain, yours very truly, ROBERT E. CAMPBELL, M.L.A. Rocky Mountain."

NO HOUSE OF ILL FAME IN FEBRUARY DECLARES BURBECK

Late Chief of Morality Squad States City Free From Disorderly Houses.

RAIDED TWO IN MARCH BUT KNEW NO OTHERS Says Lancy's Orders Were to Give Particular Attention to Street Walkers.

TAKE UP NEW LINE The police inquiry was resumed at 10 o'clock this morning. The fact that there were nearly 100 Hindus in a dangerous state of mind from their long confinement on board the vessel, and that they have friends to an equal number on shore, renders the situation one of great seriousness. Many of the Hindus are trained soldiers and it is feared that they will put up a strenuous fight.

Inspector Burbeck said that the morality squad was doubled in March. It was because there were so many street walkers and they had orders to pick them all up. He did not know how many of them were picked up in March except two which were raided—514 and 145.

Mr. Boring: About how many street walkers were there in March?—In March there were 10 arrests of men and women. I think it was likely that there were a great many more. Did you find out where these people lived?—They would give us their addresses.

Would you then look up the addresses?—No. There are a lot of these girls living in rooming houses. What would you do with these rooming houses?—After we had taken five or six parties out of there, a charge would be laid against the proprietor. Why didn't you raid the houses?—I didn't think it right to raid houses where there were many respectable people.

Witness said they had taken girls out of the Dunes, Acma, National, Imperial and Tuxedo rooming houses. The proprietors of the Acma, National and 601 Clara street had all taken up and convicted. He did not remember Deputy Warden Smith and his assistants raiding these houses. "Any orders I got," said witness, "I got from Chief Lancy."

BY BIG MAJORITY B.C. COAL OWNERS VOTE TO KEEP ON

Confident International Organization Will Soon Stop Paying Relief Money.

CAN THEN SAY THEY WERE TURNED DOWN

Nanaimo, B. C. June 23.—While not officially made public it is stated on reliable authority that the miners of Vancouver Island, on strike for over a year, have voted by a majority of 1,200 to continue the industrial struggle. The action of the strikers in voting by so large a majority to continue the fight is said by one of the men high in the ranks of the strikers to be because the men feel confident that the international organization will soon stop paying relief money. And is anxious for the men to call the strike off, while action on the part of the men would enable the United Mine Workers of America to let itself down easy, and say it had paid relief as long as the strike continued.

Although having voted to continue the strike, a big majority of the strikers feel confident that relief will not be received from Indianapolis to the effect that relief money has been stopped, in which case the strikers will feel that they have been finally turned down by the international organization and find it impossible to continue the struggle without outside financial assistance.

VANCOUVER WILL RIOT IF HINDUS ARE ALLOWED IN

H. H. Stevens, M.P., Asks Government to Send Armed Force to Keep Order.

SERIOUS SITUATION FACES AUTHORITIES Hindus Pay Up Charter Money and Ship Stays, But May Be Towed Out.

Ottawa, June 23.—The government has been asked to send armed force to Vancouver to prevent a riot in connection with the Hindu situation in that city. A long telegram has been received from H. H. Stevens, M.P. for Vancouver. Mr. Stevens stated that Malcolm Reid, the immigration official in charge at Vancouver, had been summoned to the courts to give reason why certain details in connection with the examination of incoming immigrants had not been carried out and to show on what grounds they should not be allowed to land.

It appears that the examination has not been thoroughly carried out in all its technical details and the fear is expressed that the court may decide against the department and an order made to have the Hindus landed.

Mr. Stevens states that if they are landed a riot will certainly ensue and he anticipates that there will be bloodshed, and disturbances of a very serious nature.

Bitter Feeling. The people of Vancouver are bitterly opposed to the landing of the party. The fact that there are nearly 100 Hindus in a dangerous state of mind from their long confinement on board the vessel, and that they have friends to an equal number on shore, renders the situation one of great seriousness. Many of the Hindus are trained soldiers and it is feared that they will put up a strenuous fight.

Inspector Burbeck said that the morality squad was doubled in March. It was because there were so many street walkers and they had orders to pick them all up. He did not know how many of them were picked up in March except two which were raided—514 and 145.

NO ALUM

MAGIC BAKING POWDER

THE ONLY WELL-KNOWN MEDIUM-PRICED BAKING POWDER MADE IN CANADA THAT DOES NOT CONTAIN ALUM AND WHICH HAS ALL ITS INGREDIENTS PLAINLY STATED ON THE LABEL.

E. W. GILLET COMPANY LIMITED WINNIPEG TORONTO. ONT. MONTREAL.

Hon. R. Roche, minister of the Interior, is now in the west. The telegram therefore was sent to the acting minister, Hon. C. J. Doherty. But he has left for Quebec, so the premier has taken the matter in hand.

The result of the court proceedings at Vancouver is being awaited with considerable anxiety in official circles.

Been Here Month. Vancouver, June 23.—The Hindus arrived in Vancouver harbor just a month ago yesterday.

They have spent that month knocking at the door of the immigration department. Yesterday they commenced knocking at the front door of the big court house on Georgia street.

Mr. H. Stevens, M.P., is trying to get the government to head off any appeal the Hindus can get before the courts. He wants the Japanese steamer towed out beyond Canadian jurisdiction, where the Japanese can take charge of her and work her back to Hong Kong. He fears a riot if the court gives the Hindus permission to come ashore.

"I am trying to get the government to strengthen Malcolm Reid's hands in getting them out before the courts have time to deal with them," said Mr. Stevens. "It appears, however, that it is not possible to invoke the action of the act which provides for action independently of the court. I have heard, however, that the Hindus have paid up their charter, and the owners cannot therefore go away voluntarily."

**CITY WATER HAS
ALREADY ATTAINED
4,000 TURBIDITY
FUSILIERS START
WEEK OF LIFE
CAMP AT CALGARY**

Cause is Principally From
River Banks Caving in Fur-
ther Up Stream.

**FILTRATION PLANT
CAPACITY OVERTAXED**

Heavy Precipitation of Rain
Impedes Work—Extra Drain-
age Force on.

Heavy rainfalls have succeeded in
practically suspending the entire pro-
gram of work in laying the new main by
the city waterworks department ac-
cording to the statement made by Su-
perintendent Turner to the Capital re-
presentative this morning.

"The city water has now reached
4,000 turbidity, the highest in years,"
said the superintendent. "The daily
consumption of six and one-half mil-
lion gallons is more than the capacity
of the filtration system is able to cope
with under the present existing con-
ditions," he continued.

"This high mark is reached by the
river banks caving in further up
stream, and is a matter which does not
strike the average citizen. Great mas-
sages are coming down right along,
resulting from the heavy rainfall in
rural parts of the country other than
locally. Should the rain now abate
however it will only be a matter of a
few days before normal conditions will
be restored."

Over 140 extra men are now being
employed on street drainage alone on
account of the heavy precipitation of
rain. Certain streets are the worst
that they have been known to be in
years. Particularly does this apply to
the 4th street, north of Green, and
north of Alberta avenue.

An extra day force of 25 men are kept
in the sewers and flushing and
pumping water. In addition other
force form an all-night shift, so that
there is no let up to the efforts being
made to better the drainage caused by
the water backing up. Commissioner
Hutch, stated, this morning that no
stone was being left untended towards
expediting the work and keeping pace
with the situation.

**WILL BE IN CAMP AT
CALGARY THIS WEEK**

Articles on Mexican War in
Capital and Other Lead-
ing Papers.

(Special to the Capital.)

Medicine Hat, June 22.—Sergeant
Gustav H. Schoof, a well known
soldier of fortune, lecturer, author and
preacher, is in the city today, having
arrived at his home in Calgary from
Mexico on Tuesday last. The
major is a well-known character to
this province, and is also very well
known in many parts of the United
States and Europe. As soon as mat-
ters began to get really exciting in
Mexico, Major Schoof had himself to
the troubled republic and got there in
time to have a hand in the most im-
portant encounters. He has letters
written by Carranza and Villa regard-
ing his operations and he was at-
tached to the latter's staff. He knows
Villa and the other leaders as few men
outside Mexico know them, and his
articles written for the Edmonton
Capital and other leading papers of
Canada and the United States have
cast valuable light on the real state
of affairs in Mexico.

Major Schoof is a licensed local
preacher of the Methodist church in
Canada and preached in the Fifth
avenue church Sunday evening here
on religious conditions in Mexico and
Africa, the preacher having gone
through the Boer war and other
wars in Africa. On Monday evening
he lectured at the school room of the
same church on "The Truth About
Mexico," and no one knows it better
than the major.

Major Schoof is a conspicuous figure
on the streets of the city today in
a uniform of the United States army.
He relates that during the battle of
Ojinaga he was compelled to lie in
bed for a week and so long that his
British uniform was ruined and he
was rigged out by the American offi-
cers in the United States army uni-
form and straps off and in this uni-
form he could pass where he
wished. This major is six feet four
inches tall, and was fortunate to get a
uniform to fit him.

He intends joining his regiment, the
Alberta Rangers, at Calgary camp this
week, and will address the men on
practical lessons from the Mexican war
experiences.

**TURKEY PROTESTS
SALE OF WARSHIPS
TO THE GREEKS**

Washington, June 22.—The Turkish
government has protested formally
against the proposed sale of the battle-
ships Minotaur and Ildino to Greece.

A FRIGHTFUL FIRE
Causes widespread sorrow—like-
wise a lively corn causes much pain—the
cure is Putnam's, the only reliable
Putnam's Corn Extractor, that never
fails and always cures; try it, 25c at
all dealers.

**WIND AND RAIN ARE
WEATHER MAN'S MENU**

Sergeant-Major Allan Elliott Pres-
ented With Gold Mounted
Walking Stick.

(Special to the Capital.)

In Camp, Calgary, June 22.—Six
companies of the 101st Regiment of
Fusiliers, reached Calgary Sunday
morning at 8 o'clock and, accompa-
nied by their bands, marched at once to
the camping ground, three and a half
miles from the city. Fortunately the
weather was fine and bright, and the
25 officers and men reached their
tents before a passing shower put a
temporary damper upon proceedings.

The commanding officer, Col. F. A.
Osborne, was asked to join the church
parade, but in view of the fact that
his men had been fasting for many
hours, elected to give them breakfast
at once. During this period about 4-
600 attended the service conducted by
Rev. A. O. McCreary, (president of the
Western college); Rev. C. W. G.
Moore, (35th Regiment); Rev. Hender-
son, (Calgary); Canon McMillan,
(Edmonton); and Dr. D. G. McQuinn,
(Edmonton); the address being given
by Rev. McCreary. The band of the
101st Fusiliers played during the ser-
vice, which was both im-
pressive and picturesque.

During the afternoon a strong wind
blew across the city, at one time
threatening to lift some of the tents,
which, rain fell at intervals, thus stop-
ping many people from paying the us-
ual Sunday visit to camp. Neverthe-
less many motored over and were en-
tertained by the various regimental
bands in their large marquees. Lieut.
Horsley and the 101st musicians play-
ing pleasing selections during the af-
ternoon.

Among the latest military orders is-
sued from headquarters came the in-
formation that Capt. P. W. Anderson
had been gazetted to the rank of major,
and he consequently received many
congratulations from his brother offi-
cers.

Before leaving Edmonton, Sergeant-
Major Allan Elliott, a more recent
at a gold mounted walking stick, given
by the sergeants of the regiment and
presented as a token of appreciation
for his services during the past.

Nothing of importance was attempt-
ed Sunday, but early Monday morn-
ing started a very busy day for the
officers, and, as there is plenty of good
material to work upon, the officers are
expected to be busy for some time
with a much improved regiment.

**SALUTE SUNRISE
ON OCCASION OF
SUMMER SOLSTICE**

Paris, June 22.—A company of dis-
tinguished savants and others gathered
on the top of the Eiffel tower at mid-
night to salute the sun in the cele-
bration of the summer solstice. They
included Camille Flammarion, who de-
livered an eloquent astronomical ad-
dress; Camille Saint-Saëns, the mu-
sician; M. de Chateaubriand, the au-
thor; Count de la Roche, the presi-
dent of the Académie des Sciences; and
many other notable figures. The cele-
bration was also in honor of the
25th anniversary of the Eiffel tower.

**PREMIER TO START
ON TOUR OF WEST
ABOUT AUGUST 1**

Ottawa, June 22.—Sir Robert Borden
will leave for Halifax at the beginning
of next week and will spend there
about a fortnight. A number of min-
isters now engaged in provincial elec-
tion campaigns will return to Ottawa
the first of July and plans will then be
discussed for the projected tour of the
prime minister to the west.

According to present arrangements,
Premier Borden will start on his tour
of the west during the first week of
July. He will spend most of July
in Halifax, where F. G. McCreary, M.P.,
has placed his home at the premier's
disposal.

**STACKHOUSE SCHEME
TO CONDUCT WIDE
SURVEY OF OCEAN**

London, June 22.—J. Foster Stack-
house's expedition, originally intended
for Antarctic exploration, has been de-
veloped into a scheme for surveying, sound-
ing and charting the ocean on a scale
which, it is asserted, has not been
approached since the famous Challenger
expedition of 1872-76.

Mr. and Mrs. D. B. Martin are walk-
ing from Loveland, Colo., to Cleve-
land, O., 1,419 miles.

F. C. LOWES & COMPANY

WILL OFFER FOR PUBLIC SUBSCRIPTION
SHARES IN

ROYAL CANADIAN OILS, LTD.

(NON-PERSONAL LIABILITY)

AT \$1.00 PER SHARE

This Company to which I have transferred many of my most valuable leases adjoining the United and Black Diamond Wells and close to the Monarch and several other good ones, is the only Company with which I am connected, and the Company on which all my efforts will be concentrated. It is only after satisfying myself thoroughly that Alberta is likely to prove one of the most valuable oil producing areas so far discovered that I decided to form this Company, in which I invite my clients and friends to join me, and I predict that it will prove one of the most attractive issues on the market.

ROYAL CANADIAN OILS, LIMITED Non - Personal Liability

Is the owner of leases covering 4,420 acres of the choicest holding money can buy, some of which I obtained several months ago, others more recently, as new developments warranted, and I still have others under consideration.

It is my intention to make this Company one of the strongest operating in the Province and I advise the public to subscribe liberally to my initial offering.

Capitalization \$2,500,000

RECORD NUMBER OF ARRESTS MADE LAST SEVEN DAYS

Police Department Does Good
Work in Cleaning Up
the City.

ILLICIT SELLING OF
LIQUOR MUST STOP
Heavy Fines and Orders to Quit
Town Are Given the
Offenders.

Sixteen disorderly houses, three saloons and one hotel have been raided during the last seven days, and the occupants or keepers thereof arrested and brought to trial, according to a statement of Chief of Police Hill to the Capital this morning. No doubt is a record for the police department in the history of the city. The methods used in dealing with those arrested in these places differ. Some have been heavily fined, others have paid smaller fines, many have been given short notice to quit town under penalty of immediate arrest if not obeying that order, and still others have been given the more severe penalty of a jail or prison sentence.

Frank Horro, a Chinese, arrested last night and charged with seduction of a girl under the age of 21 years under promise of marriage, appeared in court this morning, and was remanded till Thursday under cash bail of \$100 furnished by himself, and two curries of \$500 each.

Madame Madeline Russell was fined \$100 and costs for keeping a bawdy house, but the case will be appealed. Mrs. C. Jones, alleged keeper of a disorderly house on Rice street was remanded on \$100 bail. These and many other cases that appear in police court every morning, are the direct result of recent raids and the efforts of Chief Hill and his staff to make a thorough clean-up of the city.

PASSENGER STEAMERS
ARE IN COLLISION AND
BOTH OF THEM DAMAGED

Hamburg, June 22.—The North German-Lloyd steamer Koenigsluise and the German-Lloyd steamer Koenigsluise were in a collision today. Both were damaged. The passengers were landed safely.

The stem of the Koenigsluise was stove in and her fore peak was leaking. The Koenigsluise is a small steamer of 412 tons, belonging to the Hamburg-American line, was badly damaged.

The collision between the Koenigsluise and the Koenigsluise occurred during the night at Cuxhaven. Both vessels had on board a large number of passengers who had gone out to watch the regatta, and a catastrophe was narrowly averted. The shock of the collision was so severe that several of the passengers of the Koenigsluise were thrown to the deck on the Koenigsluise.

BAILIFF'S SALE

Under and by Virtue of Decree Warrants given by W. P. Studebaker and M. H. Hong to J. C. Colquhoun, bailiff, I have seized the following goods namely:

(Signed) J. J. CREIGHTON

In 1913 over 700 new buildings were erected in Leeds, England.

While the energetic agreement with the Grand Trunk Pacific guarantees \$10,000,000 for the completion of the mountain section, the work is in the house that \$20,000,000 was the more likely figure that would be required to complete the line which has to be underpinned for hundreds of years.

When finished it will be a standard road, ready for passenger service and needing no further improvement for many years to come. The bridges and culverts are of the most modern material and construction; the road bed is as smooth as those of Great Britain, which is saying a good deal; and when it is announced finally that the road is complete, the schedule can be as peremptory as any wishes.

It is expected that the Grand Trunk Pacific authorities will have the big job done at Prince Rupert in operation before the end of the present year. The completion of this great work will mean the end of the long and arduous journey to northern British Columbia, especially to Prince Rupert. That rapidly growing city will have a new industry this coming winter. Many

Customers are charged 12c per pound for metal, which amount will be refunded when the metal is returned, less 1c per pound for waste and deterioration.

CAPITAL TYPESETTING DEPT.

We beg to announce that we have started in the business of typesetting for the trade only. We have one of the best linotype plants in the west, and can guarantee a production of 300,000 ems per day; customers can rely upon a prompt delivery of all copy sent in. We quote you the following scale of prices for solid or leaded matter read and corrected:

6 point 45c per 1000 ems.
7 point 50c per 1000 ems.
10 point 55c per 1000 ems.
12 point 60c per 1000 ems.

For 250,000 ems and over we cut 10c per 1000 off the above prices.

Customers are charged 12c per pound for metal, which amount will be refunded when the metal is returned, less 1c per pound for waste and deterioration.

SAYS CAPTAINS ORDERED NOT TO RISK THE LIVES OF THEIR PASSENGERS

Quebec, June 22.—When the Empress of Ireland wreck inquiry was resumed today Captain Walsh, master of the ship, continued his testimony in regard to the number of boats and lifebelts carried by the liner. In such case the number called for by regulations was found to have been exceeded.

C. S. Haight, of counsel for the owners of the collier Sturtevant, which rammed the Empress, questioned the witness about the promotion system in vogue in the Canadian Pacific railway marine service. Captain Walsh said that the command of the Empress was the highest position in the service, and that the more efficient man the better captain.

"Does not efficiency include making regular trips?" "No," said Captain Walsh. "Our captains are ordered that they must take no risks when the lives of so many passengers would be involved. Ability to make regular trips does not enter into it."

A libel suit similar to those which have been brought against the Empress was fitted, was produced. "It is customary to give instructions to passengers to 'use the belts,'" asked Justice McLeod.

"I think not," said Captain Walsh. "I confess that we did not wish to do what would hardly know what to do with that bundle," said the justice. Captain Walsh put the belt on and tied it at the neck.

The "Noronie" the new boat of the Northern Navigation company, running between Port Arthur and Sarnia, left Sarnia on June 13 on her first regular trip as a passenger carrying steamer, and amid the loud salutations of sister craft, entered Port William harbor, where the Grand Trunk Pacific "Great Lakes Express" awaited her on Monday, June 15. All passengers were highly satisfied with her service and accommodations, and were still more gratified at the superb rail accompaniment afforded by the G.T.P. from Port Arthur to their destinations in all parts of the west.

The "Noronie" is the finest steamship that has ever plied the broad waters of Lake Superior or Lake Huron, and is the largest of her kind afloat on inland seas today.

The grey-hulled boat of the Atlantic surpasses her in size, but in the elegance and comfort of her passenger quarters, in the stowage of her hold, she is her peer. In her construction the best safety devices have been employed. Her six decks tower above the water. They are of steel—main deck, spar deck, promenade deck, observation deck, deck and hurricane deck. The propellers are churning the water in her wake, but in spite of the power of her engines she moves without apparent vibration.

The dining-room is in many respects the most delightful of all the pleasing spaces upon the ship. It is 156 feet long.

The Grand Trunk has found the "Safety First" movement so valuable that it has decided to extend it to the Grand Trunk Pacific. It has engaged a safety engineer, who has charge of the system, will extend the organization to the new system under the direction of the general manager, who is a partner in the system, and who is a partner in the system, and who is a partner in the system.

The success of the movement on the Grand Trunk has been largely due to the splendid co-operation of the men themselves, who vie with each other in the performance of their duties, whether in the shop or at terminal. In the past they have been urged to "do it right" under the impulse of "derring-do," and such were applauded throughout. That is all gone.

Now the emphasis is on safety, and must be repeated now, first of all by his own conduct, who would have the system, and who is a partner in the system, and who is a partner in the system.

Adding the dock along the face of the harbor are the big new wharves and the railroad has large freight yards here.

For a city that dates only to 1904, when the Grand Trunk Pacific's staff of engineers met here to plan the line, the location of their temporary headquarters is a record of progress that it would be hard to equate.

June has shown a marked falling off in the bulk of immigration. This is a very large immigration month, as the people of the church and of the community on having Mr. and Mrs. Conolly with them again.

Mr. Conolly, in reply, expressed, for himself and Mrs. Conolly, their hearty thanks for this kind reception. He said such a welcome from the people of the city would be encouraging, but much more from a field that knew them and their work so well.

After a short musical program the young people, including the pastor, enjoyed a few lively games on the lawn. The children all sat down to supper. On Sunday large congregations listened to Mr. Conolly and greeted him and his wife with many expressions of delight on their return.

Steamer arrivals are reported as follows: Philadelphia—Merion, Liverpool. Glasgow—Scandinavian, Montreal. Quebec—Kronprinzessin Cecilie, New York. Liverpool—Mauretania, New York. Canada, Montreal.

Quebec—Vaterland, New York. Dover—Finland, New York. Liverpool—Minnehaha, New York. Christiana—Hellas, New York. Hamburg—Prinz Adalbert, Philadelphia. Bremen—Grosser Washington, New York.

EDMONTONIANS AND CHICAGOANS FORGET THERE IS BOUNDARY

Industrial Commissioner George M. Hall has received a letter from the British-American Association of Chicago, telling all about the big time the Edmonton excursionists who are now at the Toronto advertising convention had at the windy city at the head of Lake Michigan.

The drive around the city and the banquet which followed were given under the auspices of the Chicago Association of Commerce. The automobile party included all the principal points of interest in the city with stops at Lincoln and other parks, and a banquet at the Sherman hotel was one to be remembered.

The Chicago morning papers of last Thursday had reports, the dominant note of which was that the international boundary line between the United States and Canada had been obliterated. The principal speaker for the visitors was Mayor McNamee, who, in referring to the Chicago Association of Commerce, the Chicagoans about tax reform and municipal ownership, George P. Smith, M.P.P., of Chicago, also referred to them as to the meteoric growth of this prosperous district.

Representatives of the cities along the route contain interviews with the mayor and others, and also with Secretary of Commerce, who preceded the big crowd to Toronto.

DISCUSS FORM OF PEACE MEMORIAL IN THIS CITY

Sub-committee Will Ascertain Attitude of Dominion Government on Same.

MANY SUGGESTIONS
GIVEN AT MEETING
Movement to Celebrate Centenary of Peace Begin to Outline Program.

Discussion as to the most suitable form of the erection of a permanent peace memorial in this city should assume, was the chief topic before the sub-committee which met yesterday in the Civic Industrial chambers. His honor the Governor General, presided, and a number of suggestions were offered in the way of a statue, column or building as a fitting memorial to the anniversary of the century of peace between Great Britain and the United States.

It was finally decided to ascertain from the organizing secretary for the movement in the Dominion, E. H. Beaman, of Ottawa, the attitude of the Dominion government towards the same and what grant, if any, would be forthcoming.

MUCH BUSINESS TO COME BEFORE COUNCIL TONIGHT

Meeting Will Be Lengthy One if Nothing Intervenes to Disturb Quorum.

TELEPHONE RATES TO ONCE MORE COME UP

Possibility of Again Delving Into Police Investigation, "Pro. and Con."

Tonight will see a volume of business confronting the city council, providing another animated discussion of the present police investigation is not entered upon by some of the city fathers. If a repetition of last week's meeting is enacted another storm scene may possibly be the result of action working out a similar discussion. The question of telephone operation rates will be one of the most vital ones to come up. Another will be the fixing of a date upon which the council will sit as a court of revision on the appeals against the 1914 assessment roll.

A communication will be read from the department of municipal affairs relative to the application of the village of Beverly for admission into the corporation of the city. The department asks from the council an expression of their views in connection with the said application.

A comprehensive report will also be tabled on the electric commission charter by the special committee appointed for that purpose.

Reports from the joint commissioners will be received on the installation of water and sewer; re-subdivision of property; the widening of Edmonton street and the opening of St. Leon boulevard, Wellington park.

Recommendations from the commissioners of public works in regard to boulevarding Seventh avenue northeast and the closing of Fourth street from McLeod avenue to the river will also come up.

The protest of the Edmonton Property Owners' Association against the council's plan of planning and care of trees in the city will be another question that will occupy the attention of the council.

Amendments to several by-laws including those of billboards and signs, and bread and bakers will be considered.

In view of the suspension of last week's meeting, many routine business was necessitated being laid over. Together with what has since arisen, the session by promise to be a drawn-out one, if harmony reigns and no calamity threatens to endanger maintaining a quorum throughout.

Among the unfinished orders of business from a week ago is the resolution drafted to the Honorable Mr. Justice Scott, asking the investigation pending to extend the inquiry respecting paragraph three. This asked that the period of such inquiry concerning gaming houses or houses of ill-fame go back to February 1, 1911, as in regard to other matters in which the investigation has been requested.

While the resolution in question was tabled and seconded it was not finally disposed of, when the meeting broke up, owing to the lack of a quorum, caused by three of the aldermen leaving the council chamber. It will therefore be the first item to come up tonight again, and it is just possible that it may provide any stumbling block by the wards as on the former occasion.

WILL CONDUCT FIRST RURAL SOCIAL SURVEY IN WESTERN PROVINCES

Dr. W. A. Riddell, who has been conducting a social survey in the city for the past few weeks, has for Monday, where he will conduct a rural social survey, the first that has been made in the western provinces. After about six weeks he will return to Edmonton in time for the "Social Survey Exhibition" which is to be held towards the end of the summer.

Secretary Davidson, of the Welfare League will co-ordinate the reports on the social survey of the city prepared by the several committees under the direction of Dr. Riddell.

ASK THREE PLANK WALK, MAJORIE ST. IN BAD CONDITION

At yesterday's meeting of the city commissioners' application was renewed for a three plank walk on the north side of Sixth avenue, south from Eighth street east to Seventh street east. The matter was referred to Commissioner Chalmers for report.

The action of the commissioners was also called by the impassable condition of Majorie street, below the hill. Commissioner South was instructed to look into the same and see what could be done towards improving the street.

BURNED HOLE IN DOOR TO SECURE TREASURE

Strongbox at Post Office Opened at 12:50 o'clock This Afternoon.

FIVE PACKAGES MONEY FOUND SAFE WITHIN

Accidental Switching of Combination Causes Lots of Trouble.

At 10 minutes to 1 o'clock this afternoon a score or more anxious eyes watched the big steel door of the post office vault swing open. A hole had been burned through the door to the combination. And all is safe. When it was found that it was impossible to bore a hole through the door men working last night and all this morning burning their way into the vault of the vault. The method used was acetylene and oxygen, and solid chunks of the metal had to be taken out. As a result of the extreme heat used, the big door was heated all over and showed little inclination to open even after the combination had been sprung.

A big policeman stood on guard at the door of the vault all night, lest someone might be tempted to try their luck at solving the combination, and helping themselves to the five big packages of currency that reposed inside.

The trouble seems to have arisen from the combination becoming accidentally switched, as combinations sometimes do, and a safe expert at work to make the best of the result that the burning finally had to be resorted to.

JUDGMENTS HANDED DOWN FROM BENCH IN SUPREME COURT

The supreme court resumed sittings yesterday but at the end of the week will adjourn for the holidays. Mr. Justice Walsh is presiding.

Judgments handed down in the supreme court include the following:
In the action of Norman vs. Vancouver, Mr. Justice Walsh gave judgment in which the action is dismissed without costs. This was an action which arose out of the accidental killing of one Edmund Brackwell, in September, 1911.

In the action of the estate of Brackwell vs. the estate of Brackwell, judgment has been given by Mr. Justice Beak, in which the action is dismissed without costs. The judgment declares that the defendant was negligent, but there was no negligence on the part of the plaintiff.

Mon. Mr. Justice Scott handed down judgment in the action of Anne Cumbridge vs. Murdoch Sutherland, an action for \$2500 damages for seduction, in which the defendant obtained judgment with costs.

In the action of Tyrkian Gorka vs. the plaintiff, Elshakoff & Co., judgment has been given by Mr. Justice Beak, in which the action is dismissed without costs. The parties are farmers, who live in the vicinity of Vegreville.

In the action of Mackenzie, Mann & company, an action for \$10,000 damages, judgment has been given in favor of the plaintiff for \$1000 and costs by Mr. Justice Beak. The plaintiff is the employer of defendant company, and was engaged in blasting holes in the may of the Fraser River, near the mouth of the Fraser, when the explosion took place from fuses set by another workman, and as a result he suffered very serious damage to his eye and ear, and his lower jaw was broken.

Mr. Justice Beak has also given out judgment in the case of Charles H. Chalmers vs. McKinnon, an action for \$700 damages and costs. The action was one for \$700 taken by Chalmers, who lives in Calgary, against the construction of a pile bridge at Calgary creek on the line of the C.N.R. west of Edmonton.

The action of Haskins vs. Frenche, for \$10,000, to which plaintiff claimed he was entitled over the sale of some Edmonton property was dismissed by Justice Stuart, without costs.

WILL PREPARE PLANS FOR NEW BRIDGE ON 6TH AVENUE AT ONCE

Superintendent Allen of the street department has notified the city commissioners that he has closed Sixth avenue south from Ninth street east to Thirtieth street east, owing to the unsafe condition of the bridge on Sixth avenue south.

After consultation with the city engineer, he points out to the board that it should be a waste of both time and money to attempt to repair the same. The bridge has already been condemned and it is in an absolute condition. Work is occurring from the river, and it has been decided to altogether remove the bridge, and a new one is required.

The superintendent also further points out that the old one is not in the proper location, this being an important thoroughfare leading from Sandy Lake and Coaling lake districts.

Acting upon the recommendation that a new bridge be erected on the river, the commissioners yesterday referred the matter to Commissioner Davidson of Public Works, instructing him to have the city engineer prepare plans. These will be submitted to the city council as soon as completed.

EDMONTON EASILY DEFEATS CALGARY IN TENNIS MATCH

Games Took Place in Calgary Saturday—H. C. Evans, Edmonton Player, One of Best Players in Province—Evans-Nash Team Will Make Strong Bid For Men's Open Doubles at Provincial Tournament.

The first match between Edmonton and Calgary took place in Calgary last Saturday, the Edmonton Tennis club sending down the strongest team. Edmonton has ever produced, and won by six sets out of eight.

The team were as follows:
Edmonton—A. J. Toole, R. C. Carlie, M. B. Francis, R. T. Holman.
Calgary—H. C. Evans, P. S. Johnson, A. E. Nash, S. Gullion.
Four singles and four doubles were played.

Evans won from Gullion 6-0, 6-1, in a very fast match, the spectators being surprised by Evans' play at the net, and his fore and back-hand drives. Evans is well known in Vancouver and is perhaps the best player ever seen in Alberta.

Johnson played a careful game and apparently without extending himself defeated Holman of Calgary 6-3, 6-3. Nash just defeated Francis by 12-6, 10-8, in their first set, both being very steady, and it was only in the second set which Nash won 6-3, that he showed himself the better player.

A. Toole of Calgary, who is probably their best player, was successful only after three sets in defeating Gullion, 6-4, 3-6, 8-6.

The doubles, as the score shows, were very interesting, and in some cases contested, but Edmonton was successful in winning three out of four events. Evans and Nash, who, in the best match of the day, defeated Toole and Francis 7-5, 8-4, are looked upon to win this year's men's open double at the provincial tournament.

The scores were as follows:

Singles—

H. C. Evans beat R. C. Carlie by 6-0, 6-1.

P. S. Johnson beat R. T. Holman by 6-3, 6-3.

A. E. Nash beat M. B. Francis by 12-6, 10-8.

A. J. Toole beat S. Gullion by 6-4, 3-6, 8-6.

Doubles—

Evans-Nash beat Toole-Francis by 7-5, 8-4.

Johnson-Gullion beat Carlie-Holman by 6-3, 6-3.

Evans-Nash beat Carlie-Holman by 6-4, 3-6, 8-6.

Toole-Francis beat Johnson-Gullion by 6-4, 3-6, 8-6.

Result—

Edmonton—4 events, 16 sets.

Calgary—2 events, 4 sets.

MAJOR LEAGUE RESULTS

Baltimore Won
St. Louis, June 24.—(Federal) Although they had not made a hit before, St. Louis rallied in the sixth and hit Wilhelm for five runs, tying the game temporarily. In the next three innings Keppner, who was sent in for the locals, gave the visitors three more runs and an 8 to 5 victory.

Fourteen Straight
Indianapolis, Ind., June 24.—(Federal) Indianapolis battled the local Athletics in the last of the first inning and scored five runs causing the retirement of Peters, who started on the mound for Brooklyn. Falkenberg held Brooklyn safe all the way and Indianapolis won its fourteenth straight victory. Rain prevented the double-header scheduled.

Rucker Was Invincible
Brooklyn, June 24.—(National) Nap Rucker pitched one of his invincible games yesterday and overruled the Pittsburgh, 2 to 1 in a battle with Cooper, who, except in the first inning, was equally effective. Both sides played sharply and the game was fielded in 75 minutes.

St. Louis Wins Again
Philadelphia, June 24.—(National) St. Louis won yesterday, again, by knocking Rixey off the mound in his third inning, the score being 7 to 6.

Easy for Kansas
Kansas City, June 24.—(Federal) Adams' team made easy work of the early lead in yesterday's game and he never was in danger, the locals defeating Pittsburgh, 5 to 2.

Baltimore's Day On
Baltimore, June 24.—(Exhibition) After shutting out Toronto 3 to 0, in a championship game, the Baltimore International league club yesterday defeated the Cincinnati National League 8 to 4. Manager Heroy of Cincinnati, whose team has five here, was given an ovation by a big crowd when he appeared on the field.

SENSE IN THIS!

When a Man can Hit himself at Hudson's Bay for several dollars less it's plain as the nose on his face that he should go. Cool Panama this week are only \$5.00 in that Greater Men's Store.

MAROONS SPLIT DOUBLE-HEADER AGAINST WINONA

Northern League Games Furnish Excitement for Winnipeg Fans.

Winnipeg, June 24.—Winona and Winnipeg made an even race after two snappy games of baseball here yesterday. In the afternoon the locals gathered in the long end of a 5 to 1 score, but a ninth inning finish gave the visitors the evening game, 2 to 1.

The matinee game started out as if it would be a pitchers' battle between Ralph Bell and Rhoades, but the Maroons got to the southpaw in the pinches, while Rhoades was invincible outside of the sixth, when three hits yielded one run.

The evening game was one of the prettiest pitchers' battles staged here this year, in which experts accounted for all the runs. Torosson made a league record for the season when he fanned 14 men, while Shrikey was also in good form, but threw his game away in the ninth.

Afternoon—
Winona..... 000 001 000—1 7 5
Winnipeg..... 002 011 106—5 10 4
Batteries—Bell and Meyer; Rhoades and Kurke.
Evening—
Winona..... 000 000 002—2 5 1
Winnipeg..... 000 100 000—1 7 5
Batteries—Torosson and Meyer; Shrikey and Ellis.

Wild's Cup Race Today

The second Wild's Cup five-mile road race is arranged to take place this evening at 7 o'clock, from in front of the Y. M. C. A. The route is out First street and Maymoye avenue to Beechmont and return. The last race was won by Shroeter, a limit man in the handicap, and a good entry list is expected for today's race. The race is a handicap and every man has a chance.

Princeton vs. Yale

New York, June 24.—Princeton defeated Yale in the deciding game of their series on the Polo grounds here yesterday in a well played game, 1 to 0.

ESKIMOS VS. BRONKS.

Rain again prevented the Calgary and Edmonton teams playing on Diamond park yesterday, but two games are scheduled for today, and at the time of going to press, weather conditions look favorable. The first game will be called at 3 p.m. and the evening game at 6.45. Umpire Wheeler is in charge. Pitcher Dave Gregg, the Spokane whirlwind, will be called to pitch one of the games. He arrived in town yesterday from the coast.

BOTTOROFF ALLOWS HATTERS ONE HIT

Red Sox Keep One Step Ahead of Eskimos by Beating Medicine Hat.

Regina, June 24.—Showing a complete reversal of form, Regina last night defeated the Red Sox, 1 to 0, in a game that was a surprise to the Eskimo fans. The Red Sox were expected to win, but the Eskimos, led by Bottoroff, kept the Sox out of the game.

Netzel pitched Spencer behind the bat and Zedler took Nettie's place in left field. Bottoroff for the Sox was good, only allowing one hit and giving one pass. In the fifth, he walked and was sacrificed to third, coming in on Gidding's hit.

Medicine Hat..... 000 010 000—1 1 4
Dunn and Bliss; Bottoroff and Netzel.

LOCAL SOCCER NOTES

Edmonton Welsh Won
In an intermediate league game played at the old exhibition grounds last night the Edmonton Welsh defeated the St. Paul's team by a score of 2 to 1. The game was refereed by E. W. Buckley.

S. O. S. vs. Radials
The football players will represent the Sons of Scotland in a senior league match against the Radials at the old exhibition grounds on Saturday evening. Barker, Craig, McKie, Davey, Lord, Hamilton, Bryant, Harrison, Nylle, Livingston, Davis, Harrison, Kyle.

Resolve Wins Race
Rye, N. Y., June 24.—All three of the cup defense captains, the Resolve, Vanitie and Defiance sailed yesterday for the first time in a complete race and finished in the order named with the flag officers yacht a winner by many minutes. It was her sixth and longest victory over the Vanitie, which seemed slower than usual, while the Defiance, which had a chance for the first time to show her worth, proved a disappointment.

Georges Carpentier Matched for \$5000 Bout on August 2.
London, June 24.—It was announced here yesterday that "Young" Ahern, of Brooklyn, and Georges Carpentier, heavyweight champion of Europe, had been matched to fight in London on August 2, for a purse of \$50,000. The money was put up by Heracle Bottomley, the English publisher and financier and former liberal member of parliament.

BURT WON SECOND PLACE MOOSE JAW SPRING RACE MEET

Gratton Boy Took Three Straight Heats in 2.35 Trot.

Moose Jaw, June 24.—The track was in fine condition for the opening day of the racing here yesterday and some keenly contested heats resulted. The surprise was the defeat of Dean Swift in the 2.35 trot, Gratton Boy taking three straight heats in 2.35.

Redwood Wilkes won the three minute pace in straight heats. Hal Boy took the 2.25 pace, also in straight heats. In the 5 1/2 furlong dash, Dickey Niblock, rider of Sam Rank, was set down by the judges for 30 days for striking jockey Joe Farrier, rider of One of the winners, coming up the stretch. In the mile and sixteenth, Johnnie Singleton rode a beautiful race on Frank Fletcher, and won by a couple of lengths after a hard stretch finish.

Mills and sixteenth, running, purse \$100—Frank Fletcher, Johnnie Singleton, Tulsa, Okla. won; Burt, Edmonton, Stables, Edmonton, 2nd; Sure On, V. Hood, St. Paul, Minn., 3rd. Time—1:12.

JACK JOHNSON WILL NOT FAKE

Negro Too Proud of His Championship to Throw Fight to Moran.

Now some one has started the usual story that the Morans fight will be a "frame-up." That was the story that was run around some time before the date of the fight.

But there is no possibility of a fake. Johnson wouldn't sell out and lose a championship fight to any one. He is as proud of that championship thing as a Zulu is of a stoppage hat.

Johnson doesn't for an instant even suspect that he may possibly be defeated. He has the most supreme confidence in his own fighting power. He thinks he can beat Moran or any one else with ease. He believes Moran will be too badly frightened to fight when he sees Johnson in the ring.

As for the Moran side of it, Moran is an intelligent fellow. He realizes that knocking Johnson out would bring him an enormous fortune. He'll go in and fight and take a desperate chance, when it comes down to the win or lose point.

The training of the two men indicates anything but a possible agreement between them. Moran has been working quietly for several months. Johnson has been taking unusual care of himself and has been doing unusually hard work in his training camp. Before Johnson went west to fight Jeffries he dislocated heavily while he was going through small bouts in the east. But once headed for the big fight he worked like a trench digger. Reports from France state that Johnson has taken off a great deal of his superfluous flesh.

Moran's theory of the fight is that Johnson will look as fit as ever and be as good as ever for six or seven rounds. Moran says that if he is able to weather Johnson's attack through the first half dozen rounds Johnson will lose his speed, while Moran will be as fresh as ever. Moran is pitting his own endurance and condition against the big black man's skill, and that's where his hope of winning lies.

ELEVEN INNINGS CONTEST IS WON BY QUAKERS FROM ROBINS

Chief Cadreau Let Moose Jaw Down Without a Run, and Concannon Allowed Quakers to Tally But Once.

Saskatoon, June 24.—In a grand pitchers' battle here yesterday, Chief Cadreau bested Concannon and in the eleventh the Quakers moved out with the only run made in the game.

Four hits were all that the locals gathered seven from Weeds' port-ender, two of which came in the thirteenth inning Monday. Both pitchers were in the hole at times but by air-tight pitching and fielding they managed to get out safely. In the

eleventh, with one man down, Plunkin hit over second and after Hurley had fled out to Whisman, Brown, who was playing in left for the locals, clouted one that was good for three bases, scoring Plunkin. The Quakers are still playing with two men on the sick list, Chick being out with a bad ankle, and Grover being sick. Two snappy double plays by the Robins floored them out of different places. Whisman played a good game in center, gathering in five flies, two of which were beautiful catches.

Score—R H E
Moose Jaw..... 600 660 600—0 4 4
Saskatoon..... 000 000 001—1 7 1
Concannon and Wilkey; Cadreau and Walters.

Moran-Johnson Bout June 27th.

Paris, June 24.—Jack Johnson and Frank Moran both began yesterday to reduce somewhat their training activities with the approach of the date of the contest for the heavyweight championship which has been set for June 27.

The champion has cut down his long walks and has lightened his boxing and other work. Moran, who also had been training hard and steadily, similarly took things easily yesterday at his quarters near Merlet-sur-Oise. Moran, who has been full of confidence, was cheered by the receipt of a batch of letters wishing him success.

At the Velodrome d'iver, where the fight will take place, workmen have begun arranging the seats in preparation for a large crowd, among which the nobility will be represented.

So far there has been little betting on the bout. The odds yesterday were in favor of Johnson.
